Dear Hoyt:

Enclosed are two copies of the above-identified patent application, along with a redlined version, which has been revised for review by Eric D. Anderson to ensure that it is complete and accurate. If you or Mr. Anderson have any changes for the description and/or drawings, please make the necessary revisions on one of the copies and return it to us for retyping. However, if the revisions are not too extensive, please ask Mr. Anderson to initial and date the revisions and return them to us along with the executed filing documents. The other copy is for your file. If the application requires no revisions, please advise us and we will formalize the drawings and file the application.
